

How to Rectify a Missing, Illegible or Incorrect Shipping Mark for Australian Product using Meat

Training intended for:

U.S. Import inspection establishment documentation personnel and U.S. Import inspection personnel.

Use Case for Rectifying Missing, Illegible or Incorrect Shipping Marks

A rejection notice will be issued for cartons that have a missing or illegible shipping mark. If the load is uploaded into Meat Messaging with all carton barcodes attached to the consignment, you will be able to provide this document as evidence to the inspector for re-stamping.

Why it is possible to Remark Australian Cartons through Meat Messaging in the U.S.

These instructions are related to FSIS Directive 9900.5 Rev. 2 that was released on the 21st of December 2020. Section E Procedures for Correcting Shipping Marks when Using Barcodes, Part 4 / b states “A report provided by the exporters that links the barcodes to the lot identified of the foreign inspection certificate”. Meat messaging provided that report by searching a single barcode and returning the full consignment list of carton barcodes. Refer to: https://www.fsis.usda.gov/sites/default/files/media_file/2021-02/9900.5.pdf.

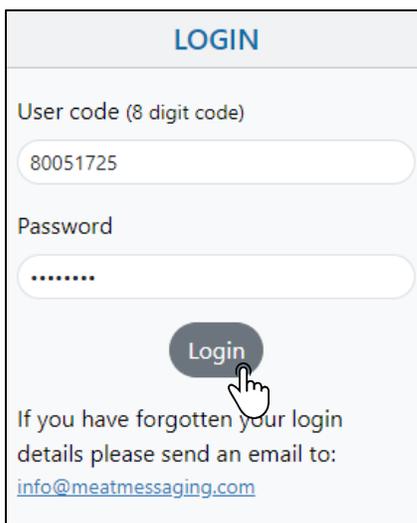

IMPORTANT: The exporting establishment must be FSIS listed to use the directive above to remark missing shipping marks. First view this full list to see if the establishment is eligible to use this protocol here: <https://meatmessaging.org/endorsed-est>

Simple PC and App Instructions for Remarketing Cartons

Step 1:

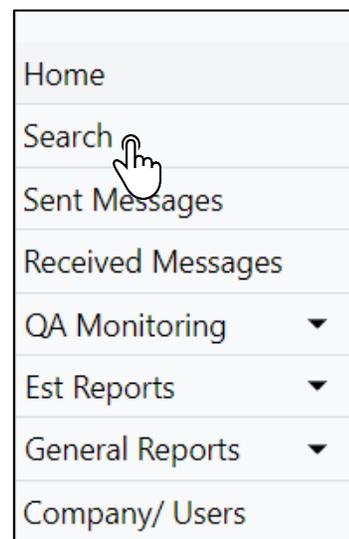

Login to Meat Messaging
<https://www.meatmessaging.org> and login with your usercode and password.

If you do not have your usercode or password, please email info@meatmessaging.com

Step 2:

On the side panel bar, click Search.

For more information go to: <https://meatmessaging.org/>
Call us on: +617 3073 9234
Email us: info@meatmessaging.com

How to Rectify a Missing, Illegible or Incorrect Shipping Mark for Australian Product using Meat

Step 3:

In the search bar, enter the consignment's:

- Health/Inspection Certificate Number
- Shipping Mark
- Carton Barcode Number
- Pallet Barcode Number

NOTE: The consignment can be found using the inspection certificate number on the Refused entry notice

DEPARTMENT OF AGRICULTURE SAFETY AND INSPECTION SERVICE REFUSED ENTRY NOTIFICATION (Meat, Poultry & Egg Products)	DISTRIBUTION: US Customs Applicant/Broker: Importer of Record Retain for Case File	1. INSPECTION CERTIFICATE NUMBER 999999995
Within 45 days (30 days for egg products) of the Refused Entry Date, this Product must be Removed from the United States, Converted to Animal Food, or Destroyed so that it can no longer be used for Human Food.		2. REFUSED ENTRY DATE 1/4/2023
NO DIVERSION OR DIVERSION ALLOWED. PRODUCT MUST BE DISPOSED OF BY: FAILURE TO COMPLY, MAY RESULT IN SEIZURE OF THIS PRODUCT.		3. 48(HR) DAY TIME LIMIT DATE 2/18/2023

Meat Messaging Search

Health cert, Shipping Mark, Message SSCC, Carton or Pallet search (GS1 compliant meat carton barcode [GTIN] or Pallet/ Group [SSCC] barcode)

Search

Step 4:

If the shipment exists in Meat Messaging, the search will return a result containing the shipment Movement Details including:

- Message SSCC
- Message Type
- Destination
- Etc.

Last Search: 999999995

Movement Details								
Message SSCC	Shipping date	Message Type	Message Status	Health Certificate	NPE	Company Reference	Shipping Mark	Destination
892487310080000351	20231218	Export	OPEN	999999995	10001221	12345	ZZZ/954524	Philadelphia - United States of America
Show Export Report	Certificates and Endorsements	Send an Advance Shipping Notice	Report an Issue with the Shipment					

Step 5:

After confirming the shipment exists in Meat Messaging on the website, open the Meat Messaging Online app <https://app.meatmessaging.org> on the scanning device, and login with your usercode and password (the same credentials used in Step 1).

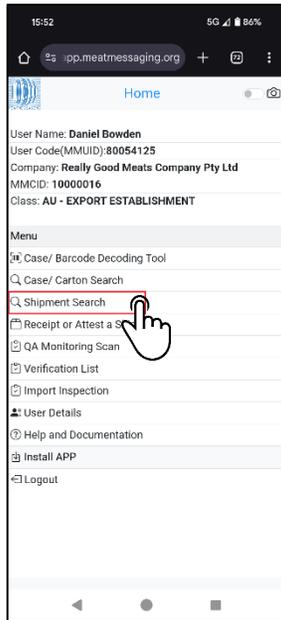

For more information go to: <https://meatmessaging.org/>
Call us on: +617 3073 9234
Email us: info@meatmessaging.com

How to Rectify a Missing, Illegible or Incorrect Shipping Mark for Australian Product using Meat

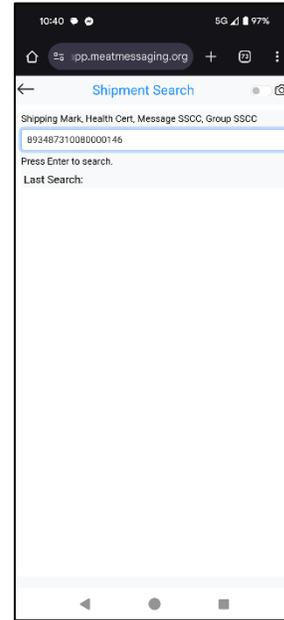

Step 6:

From the home page of the app, select the Shipment Search menu option.

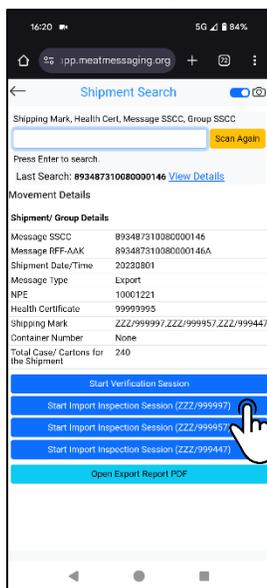

Step 7:

Input either the Health Certificate number or shipping mark for the required shipment in the search field, then press enter/ return on your keyboard.

Step 8:

After verifying the movement details match the same results returned in step 4, select the Start Import Inspection Session button that corresponds to the Shipping Mark you are inspecting.

Step 9:

Walk into the chiller. Scan the barcodes of the case/cartons that have missing or illegible shipping marks using the app.

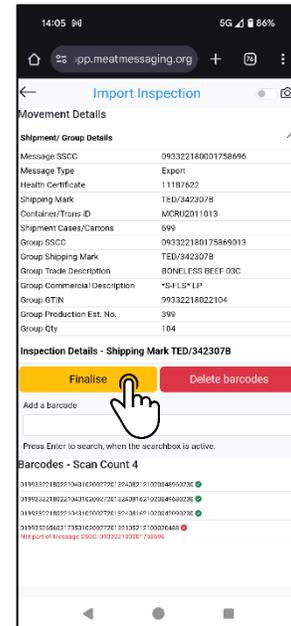

For more information go to: <https://meatmessaging.org/>
Call us on: +617 3073 9234
Email us: info@meatmessaging.com

How to Rectify a Missing, Illegible or Incorrect Shipping Mark for Australian Product using Meat

Step 10:

Once you have scanned all the case/cartons with issues, click to finalise the Import Inspection.

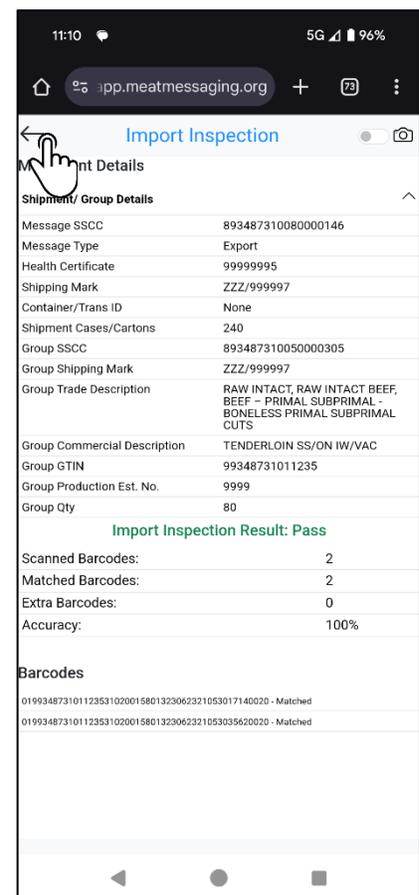

Step 11:

When the Import Inspection session has been finalised, you will see a confirmation screen displaying the details for the shipment, the scanned barcodes, and the verification check ID.

Exit out of this confirmation page by clicking the back button on the top left of the screen.

You can now close the app, as the Import Inspection is complete.

01993999999508631010002481316091921102949

Step 18:

- Present the marked report to the FSIS Import Inspection Personnel as evidence that the cases that require remarking are part of the consignment for that Health Certificate as outlined in FSIS Directive 9900.5 Rev. 2. Section VII. LOT DISPOSITIONS Part E.
- FSIS IPP are to verify that the barcode for each shipping unit matches the documentation provided. The numbers after the (21) identify the unique shipping unit number.
- FSIS IPP are to permit import inspection establishment personnel to apply the shipping mark to the shipping units if the documentation links the barcode to the foreign inspection certificate.

Step 19:

Once the cartons are remarked, the product can be released into commerce.
